

ALTRA FOREXFLO

THE MOST RESILIENT SOLUTION

Since 1895, NIEDNER has been redefining the firefighting industry by creating lighter, more versatile lay-flat hoses to overcome the challenges firefighters face. What makes firefighters around the globe trust NIEDNER's solutions is first and foremost the high quality and resiliency of the products. Our hoses have outperformed every standard worldwide.

COMBAT LARGE SCALE FIRES

Fire departments and emergency response teams across North America rely on our field-proven firefighting hose technology ALTRA Fire to combat small to large scale fires. The unique attributes of our technology set the standard for the industry. Lightweight and compact, ALTRA FOREXFLO has standard brass GHT fittings, and is factory proof pressure tested at 300 PSI (2100 kPa). The 100% filament polyester, elastomer lined, single-jacket flat-woven hose is available in 3/4" and 5/8" (16 and 19 mm) sizes, with yellow ENCAP™ or untreated. Designed for wildland applications, ALTRA FOREXFLO can also be used for hazardous materials and for personnel decontamination. ALTRA FOREXFLO options include a pouch for belt wear and a compact brass nozzle. An array of exceptional features have made it a very popular choice.

HIGHEST LEVEL OF QUALITY

NIEDNER maintains the highest levels of quality in the design, manufacturing, and testing of all our products. As a result, our solutions exceed the recognized international standards.

UNIQUE SERVICES

Our solutions have many advantages, including our unique services and our engineering support, which is second to none.

Highly safe hose

Corrosion and maintenance-free

Short lead-times and quick to install

Reusable

Standard length: 50 feet

Increased resiliency

Commitment to the environment

Formally known as ECONOFLO

FEATURES

- Designed for wildland applications. Can also be used for hazardous materials and for personnel decontamination
- Kink resistant
- Mildew, bacteria, ozone and age resistant

DESIGN

- Made of 100% filament polyester
- Lined with TPU elastomer
- Yellow ENCAP™ treatment or untreated
- Standard brass GHT fittings
- Options include a pouch for belt wear and a compact brass nozzle

OUR PRODUCT LINE CERTIFICATIONS

NIEDNER's solutions are certified by accredited independent institutes

ADVANTAGES

- Lightweight and compact
- Temperature range: -60°F to 140°F (-51°C to 60°C).
