

NIEDNER TTW MUN

SUPPLY LINE SOLUTIONS

Since 1895, NIEDNER has been redefining the firefighting industry by creating lighter, more versatile lay-flat hoses to overcome the challenges firefighters face. What makes firefighters around the globe trust NIEDNER's solutions is first and foremost the high quality and resiliency of the products. Our hoses are engineered to stand up under the most demanding applications, including intense heat and abrasion.

LARGE DIAMETER HOSE (LDH)

Fire departments and emergency response teams across North America rely on our field-proven firefighting hose technology. NIEDNER TTW delivers superior water flow by decreasing friction loss and increasing water flow on the fireground. NIEDNER TTW is a nitrile/PVC through-the-weave rubber covered construction, with a good resistance to abrasion and high burst strength. It has a service test pressure rating of 300 PSI.

UNIQUE SERVICES

Our solutions have many advantages; quality, design, and engineering support, which is second to none.

LDH (Supply Line)

Commitment to Excellence

Short lead-times

**Standard lengths:
50/100 feet**

**Manufactured in
accordance with NFPA
1961 standard**

FEATURES

- Abrasion and puncture resistant
- High pressure performance
- Increased kink resistance and GPM flow
- Ozone, age, mildew and bacteria resistant

DESIGN

- PVC through-the-weave rubber covered construction
- Rugged and Resistance to abrasion
- Compliant with NFPA 1961 Current edition

ADVANTAGES

- Lightweight hose, remains flexible even at low temperatures
- No maintenance or drying required
- High resistance to chemical, oil & gasoline
- High resistance to radiant and contact heat
- Reliability against tube delamination
- Easy to roll and pack

Manufactured in North America.
 Covered by NIEDNER's 10-year warranty.
 All NIEDNER products are dried before shipping.

TECHNICAL DATA

Diameter		Weight		Flat Width		Pressure					
Inches	Spec	Per Foot Uncoupled				Working		Test		Burst
